## MAYOR'S MESSAGE

S STONGA

EXECUTIVE MAYOR

## MUNICIPAL MANAGER OVERVIEW

I VISSER

MUNICIPAL MANAGER

#### 1.1 MUNICIPAL OVERVIEW

This report addresses the performance of the Emthanjeni Municipality in the Northern Cape in respect of its core legislative obligations. Local government must create the participatory framework that defines and enhances the relationship between elected leaders and their communities. This requires that the council of the municipality provides regular and predictable reporting on programme performance and the general state of affairs in their locality.

The 2018/19 Annual Report reflects on the performance of the Emthanjeni Municipality for the period 1 July 2018 to 30 June 2019. The Annual Report is prepared in terms of Section 121(1) of the Municipal Finance Management Act (MFMA), in terms of which the Municipality must prepare an Annual Report for each financial year.

##### 1.1.1 Vision and Mission

The Emthanjeni Municipality committed itself to the following vision and mission:

#### *Vision:*

*“A centre for development and service excellence focused on economic development in pursuit of a better life for all”*

#### *Mission:*

*“To provide a quality service at all times and;  
Value our resources both human and financial;  
Develop an active citizenry; and  
Create a conducive environment for economic growth”*

## 1.2 MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

### 1.2.1 Population

#### a) Total Population

The Community Survey of 2007 indicates that Emthanjeni Municipality had a total population of 38 230. The 2011 Census (StatsSA) indicates that the total population has increased to 42 354. The population growth rate per annum is 1.69%. The Community Survey 2016 indicates a slight increase to 45 404.

The graph below indicates the total population within the municipal area:

## 1.2.3 Demographic Information

### Municipal Geographical Information

Emthanjeni Local Municipality is a category B municipality consisting of three towns: De Aar, Britstown and Hanover. Emthanjeni, and especially De Aar, is renowned for its central location on the main railway line between Johannesburg, Cape Town, Port Elizabeth and Namibia. It is situated in the Pixley ka Seme District Municipality and is the seat of this district.

Its location is approximately 300 km south-west of Kimberley, 440 km south-east of Upington, 300 km north-east of Beaufort-West and 300 km south-west of Bloemfontein. The land area comprises 11% of the district land area and 3% of the province. It represents approximately 23% of the district population.

Of the main towns that fall within the municipal area, Hanover lies approximately 65 km east of De Aar on N1 main north to south route and Britstown is situated about 55 km west of De Aar on the N12 route. Both these main routes link Johannesburg and Cape Town. These areas are extensive stock farming areas with the emphasis on sheep, mutton and wool farming, especially Merino's.

Emthanjeni Municipality, specifically De Aar, is the seat of Pixley ka Seme District Municipality and hosts all government departments. The Municipality covers an area of approximately 11 390km<sup>2</sup>.

The maps of the Northern Cape indicate the location of the Emthanjeni Municipality in the Pixley Ka Seme District area.

## Wards

The Municipality was structured into the following 7 Wards:

Ward	Areas
1	Montana, Kareeville, Sunrise and Klein Kareeville
2	Residencia, New bright, Happy Valley, Extension 20, Extension 7 and Macarena
3	Nonzwakazi, Portion of Waterdal
4	Barcelona, Malay camp, Leeuwenshof & Portion of Nonzwakazi and Mtwana
5	Portion of town Area and Louisville
6	Kwezi, Nompumelelo, Joe Slovo Park, Tornadoville, Hanover(town)
7	Jansenville, Mziwabantu, Britstown(town), Proteaville
8	Portion of Nonzwakazi, Waterdal and Portion of Town Area

## Towns

### De Aar

De Aar means “the artery”, and in many senses this town is the lifeblood of the Karoo. It’s the head office of the Emthanjeni Municipality and Pixley Ka Seme District Municipality; home to many artists; there’s an important weather station that can be toured by visitors, and it’s the second most important railway junction in the country. The significance of its situation on the railway line is because it’s central to Gauteng, Cape Town, Port Elizabeth and Namibia.

There are about 110km of railway lines, including 29 rail-tracks in De Aar’s precincts. However, “De Aar” founded in 1904, was so named because of the many water-bearing arteries that occur underground. Unlike many other Karoo towns, it did not start around the Dutch Reformed Church, but in fact started around the railway line. De Aar boasts a weather station gathering climatic data which has literally put De Aar on the world map. De Aar has an average yearly rainfall of 300mm with the lowest minimum temperature of -10 °C, the highest maximum temperature of 40.7 °C, an average summer temperature of 24 °C and an average winter temperature of 14 °C. De Aar is situated at 1280 m above sea level and has an average humidity of 43%. As a declared industrial growth point, with ample, very reasonably priced industrial sites, affordable labour and the necessary infrastructure, De Aar is the ideal place to establish an industry in the Northern Cape.

Various major industries have already taken advantage of De Aar’s central location and excellent rail and road links to

establish themselves here. De Aar is also a primary commercial distribution centre for a large area of the central Great Karoo. Major production activities of the area include wool production and livestock farming. The area is also popular for hunting, despite the fact that the region is rather arid. De Aar is increasingly becoming the center for supplying the whole country with the famous “Karoo” mutton, so highly prized for its unique flavour and quality. There are ancient Khoisan rock engravings on the Nootgedacht and Brandfontein farms. There is also the “Garden of Remembrance”, which honours the British troops killed in the Anglo-Boer War.

All the water used in the town comes from boreholes - which is why the town is known for its large number of wind pumps. The town is easily accessible by tarred road, two airfields serve it - one is an all-weather runway that can accommodate any type of aircraft and it’s only 52km away from the national bus route.

### Hanover

This attractive and historic little town on the N1 lies more or less halfway between Cape Town, Gauteng and Kwazulu-Natal. It was established in 1854 at the base of some rocky hills on the farm Petrusvallei, which was bought from Gert Gous. Here requested that the town be called Hanover, after his great grandfather’s town in Germany.

When declared a magisterial district in 1876, the town was very fortunate to be appointed with a far-seeing magistrate,

# Annual Report

Richard Beere. He insisted that trees be planted so that resident's descendants would have shade. Due to the increase in water consumption caused by an increase in residents, the spring that Hanover was built around dried up, and the number of trees seen in the town today is far less than 100 years ago. Beere loved the Karoo and spent a lot of time on the summit of Trappieskop, where a stone pyramid honouring his contribution to the town was erected when he died.

The older houses were all built right on the road edge - as per authority's instructions at the time - and when, in later years, home owners built on verandas, they had to pay a one shilling tax for this privilege. Today, they are still paying this tax, which is now R17, 00. Hanover was home to Olive Schreiner - well known South African author - who lived here from 1900 to 1907, and referred to it as "the prettiest little village I have ever seen". Her husband, Cron, was an agent in town and today his offices are used as a small guest house. Like many small Karoo towns, most of the streets are not tarred and the residential areas are very quiet. However, behind garden walls and front doors there's plenty of activity going on as the industrious residents carry out their daily business.

The town is home to a variety of artists and crafts people, as well as having several restaurants, a delightful bookshop, coffee shop and a museum. Interesting Karoo architecture is to be seen and many gardens have a wind pump standing sentinel in one corner. Surrounding farms are principally Merino sheep farms, with many of the country's best breeders farming in the Hanover district. Lesser Kestrels, from Europe and Central Asia, come to nest in trees around town, and can be seen gliding in the dawn and dusk sky from late October to the end of summer.

## Britstown

It was in the heady days of The Great Diamond Rush in the year of 1877 that Britstown came into being. Fortune hunters paused here in their frenzied dash to the fabulous diamond field, and a settlement mushroomed to provide fresh horses, fodder, refreshment and accommodation. Soon even a concertina virtuoso made music for happy dancers lubricated by the local brew. First the Fuller and Gibson coaches and then others stopped here. But by the time

Britstown gained municipal status in January 1889, a railway line already snaked across the Karoo plains to carry would-be diamond diggers through to Kimberley.

## Livingstone's friend

The small haven of Britstown, along the diamond route across the plains, was named after a man who loved the Karoo, Hans Brits. He once accompanied Dr David Livingstone, famous son-in-law of the great missionary Robert Moffat, on a journey to the north. Livingstone originally came to South Africa to help the Moffat's at their mission in Kuruman, and it was on a journey to the north that he met Brits. They took a liking to each other, and Brits decided to travel with him. But, Livingstone did not get on with the Moffat's, so he soon announced his intentions of travelling deeper into Africa, a decision that led to him becoming probably the continent's most famous explorer. Brits decided against a life of exploration and returned to the Karoo.

## Diamonds provide the spark

Hans Brits then settled on a farm he named Gembokfontein, which is where Britstown now stands. Soon after the discovery of diamonds at Hopetown and Kimberley, Brits realised that he and his neighbours could earn good money serving the growing traffic along the Diamond Route. So Brits arranged for a town to be laid out on a portion of his farm. As a tribute to him it was named Britstown. The thinking was to establish a point between Victoria West and Kimberley that could provide travellers on the Diamond Route with accommodation and refreshment as well as fresh horses and fodder.

## A link with the gold mines

Then, in 1877, a group of men, headed by TP Theron, purchased a section of Hans Brits's farm to establish a community centre with a church. This accomplished, they handed over the management of the fledgling settlement to church wardens. Traffic through the town increased when gold was discovered in "The Ridge of White Waters" in the old Transvaal Republic. Many of the fabled mining magnates, such as Cecil John Rhodes, passed through Britstown. In time, the town became a major junction on the route to the then South West Africa (Namibia).

## Key Economic Activities

Agriculture forms the backbone of Emthanjeni's economy and accounts for the largest labour to date. Despite the harsh climate and poor carrying capacity of the veldt, it still offers opportunities for growth and employment creation. The Municipality is dependent upon the following economic activities:

Key Economic Activities	Description
Services Sector (Community)	The services sector consists of the various government institutions, Non-governmental organizations (NGO's), Community based organizations (CBO's) and Non-Profit Organisations (NPOs) that resides within our area of jurisdiction. ABSA, FNB, Standard Bank and CAPITEC
Manufacturing	Stone crushers who specialize in the manufacturing of sand, bricks, cements and rocks
	Rocla, Green Akker, Vleis Sentraal for meat processing
	Solar Energy
Retail	Purchasing of goods and services
	Checkers, Shoprite, Mr Price, Ackermans, Sheet Street, Fashion Express etc
Agriculture	Game Farming
	Sheep, goat, pig and cattle farming
Transport	Rail infrastructure
	Road infrastructure
	Rail revitalisation
Tourism	To market Emthanjeni as a tourism destination
	To speed up the restoration of existing attractions and the development of new attractions

## 1.3 SERVICE DELIVERY OVERVIEW

### 1.3.1 Basic Services Delivery Highlights

The table below specifies the basic service delivery highlights for the year:

Highlights	Description
Good water quality	100% pass rate of water samples as per SANS 241
Conversion of 30 Urine Diversion System (UDS) toilets	The Municipality successfully converted 30 UDS toilets to flush toilets with septic tanks from own funding
Funding obtained from the Department of Energy (DOE) for the electricity upgrade in De Aar East as part of the Integrated National Electrification Programme (INEP)	Network is overloaded which results in some areas experiencing power dips. Therefore, the upgrade is required to increase capacity
Funding secured for high mast lighting in Montana and Nonzwakazi	Municipal Infrastructure Grant (MIG) funding has been secured to erect high mast lights in dark areas
Solar geysers provided to indigent households	Solar geysers were provided to indigent households to assist indigents with hot water and to save on electricity usage
De Aar, Hanover and Britstown Landfill sites permitted	Approval was obtained from the Department of Environmental and Nature Conservation (DENC)
Cleaning campaigns	Dedicated cleaning campaigns were done throughout the year
Municipal Human Settlement Plan	The Municipal Human Settlement Plan, that guides housing development in area, was reviewed during the financial year

Highlights	Description
Consumer education training	Training sessions took place on a monthly basis
Construction of 195 houses in Hanover	The construction of 195 houses started in Hanover and is set for completion by the end of November 2019
Servicing of 400 sites in De Aar	The servicing of 400 sites started in De Aar and is set for completion by the end of October 2019

Table 8: Basic Services Delivery Highlights

### 1.3.2 Basic Services Delivery Challenges

The table below specifies the basic service delivery challenges for the year:

Challenge	Actions to address
Development of 12 additional boreholes in De Aar North	Obtain water use licence (WUL) from Department of Water and Sanitation (DWS) and secure co-funding for the project
Co-funding for bulk services for Britstown Bucket Eradication Programme (BEP)	Co-funding will be paid over 2 financial years
Meter tampering and bypass (Loss in revenue and increased line losses)	Meter controller to do thorough inspections. We are busy replacing the old seals with LG110 type and PT1 meters are being replaced with Con log or Landis & Gyr type meters
Copper theft (Customers are without power for a long time due to line repairs) in areas like Waterdal	Cases are reported to the South African Police Department (SAPD) and copper conductors is to be replaced with aluminium conductors. Application for funding has been submitted to DOE
Line losses reflect negatively against the Municipality if above a certain target percentage and impacts on revenue	Through continuous monitoring the Municipality aim to reduce losses even further. The Municipality is under the target of the National Energy Regulator of South Africa (NERSA) (NERSA's target is 22%)
Funding required for the electrification of 4 114 houses as part of a housing project	Business plans and funding applications have been submitted to the DOE for the electrification of 4 114 houses
Lack of machinery to perform waste management and minimize efforts	Acquire additional machinery in the 2019/20 financial year
Illegal dumping still evident	Host awareness programs to educate the communities on keeping the environment clean
Eradication of housing backlog	Business plans completed to apply for funding to eradicate the backlog
Performance by contractors	Training provided to contractors by National Home Builders Registration Council (NHBRC) and the Departments of Cooperative Governance and Traditional Affairs (CoGTA)
Illegal informal structures	Illegal informal structures should be removed
Vandalism of houses	Provision of Housing Consumer Education Training

Table 9: Basic Services Delivery Challenges

### 1.3.3 Proportion of Households with Access to Basic Services

The table below indicates the proportion of households with access to basic services:

KPA & Indicator	Municipal Achievement	
	2017/18	2018/19
Electricity service connections	12 652	12 667
Water - available within 200 m from dwelling	8 192	8 198
Sanitation - Households with at least ventilated improved pit (VIP) service	8 074	8 104
Waste collection - kerbside collection once a week	11 455	13 141

Table 10: Households with Minimum Level of Basic Services

## 1.4 FINANCIAL HEALTH OVERVIEW

### 1.4.1 Financial Viability Highlights

The table below specifies the financial viability highlights for the year:

Highlights	Description
100% Spending of conditional grant (MIG)	The full allocation received was spent and no roll-over is needed for MIG
Strive to achieve “Clean Audit Status”	Emthanjeni Municipality received an unqualified audit opinion for the past three financial years and aspire to achieve a clean audit opinion
Non-stop service delivery within Emthanjeni Municipality	Adequate financial resources were availed for continuous service delivery throughout the financial year

Table 11: Financial Viability Highlights

### 1.4.2 Financial Viability Challenges

The table below specifies the financial viability challenges for the year:

Challenge	Action to address
Non-payment of municipal services by municipal consumers impacts negatively on service delivery	The payment percentage decreases month to month. Stricter implementation of the Credit Control Policy must be applied
Payment of creditors	Enhancement of financial management principals should lead to greater efficiency of cash flow
Slow and improper mSCOA implementation	System developers are not fully mSCOA compliant which impacts negatively on the operations of the Municipality. Staff will attend informative training for the various financial management modules and systems
Negative cashflow position experienced by the Municipality	Proper cashflow management will be adhered to in combination with the credit control implementation

Table 12: Financial Viability Challenges

### 1.4.3 National Key Performance Indicators - Municipal Financial Viability and Management (Ratios)

The following table indicates the Municipality’s performance in terms of the National Key Performance Indicators (KPI’s) required in terms of the Local Government: Municipal Planning and the Performance Management Regulations of 2001 and Section 43 of the MSA. These key performance indicators are linked to the National Key Performance Area (KPA’s) namely Municipal Financial Viability and Management.

KPA & Indicator	2017/18	2018/19
Financial viability measured in terms of the municipality’s ability to meet it’s service debt obligations as at 30 June 2019 ((Total operating revenue-operating grants received)/debt service payments due within the year))	3.28	0.77
Financial viability measured in terms of the outstanding service debtors as at 30 June 2019 (((Short Term Borrowing + Bank Overdraft + Short Term Lease + Long Term Borrowing + Long Term Lease) / Total Operating Revenue - Operating Conditional Grant)	30%	9%
Financial viability measured in terms of the available cash to cover fixed operating expenditure as at 30 June 2019 (Available cash+ investments)/ Monthly fixed operating expenditure)	0.71	2

## 1.5 AUDITOR-GENERAL REPORT

### 1.5.1 Audited Outcomes

The Auditor-General of South Africa has a constitutional mandate and, as the Supreme Audit Institution (SAI) of South Africa, exists to strengthen our country's democracy by enabling oversight, accountability and governance in the public sector through auditing, thereby building public confidence. In short, the Auditor-General checks the spending of public money by looking at whether it has been used ideally and for the purposes intended. This is done by annually checking all government spending. In turn, this can be described as an audit.

The Auditor-General's annual audit examines 3 areas:

- Fair presentation and absence of significant misstatements in financial statements
- Reliable and credible performance information for predetermined objectives
- Compliance with all laws and regulations governing financial matters

There can be 5 different outcomes to an audit, once the Municipality has submitted their financial statements to the Auditor-General, which can be simply defined as follow:

- **A clean audit:** The financial statements are free from material misstatements and there are no material findings on reporting on predetermined objectives or non-compliance with legislation.
- **Unqualified audit with findings:** The financial statements contain material misstatements. Unless they express a clean audit outcome, findings have been raised on either reporting on predetermined objectives or non-compliance with legislation, or both these aspects.
- **Qualified audit opinion:** The financial statements contain material misstatements in specific amounts, or insufficient evidences for them to conclude that specific amounts included in the financial statements are not materially misstated.
- **Adverse Audit Opinion:** The financial statements contain material misstatements that are not confined to specific amounts, or the misstatements represent a substantial portion of the financial statements.
- **Disclaimer of Audit opinion:** The auditee provided insufficient evidence in the form of documentation on which to base an audit opinion. The lack of sufficient evidence is not confined to specific amounts or represents a substantial portion of the information contained in the financial statements.

The table below indicates the audit opinion received for the past four financial years:

Year	2016/17	2017/18	2018/19
Opinion received	Unqualified	Unqualified	Qualified

## CHAPTER 2

### COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

Good governance has 8 major characteristics. It is participatory, consensus oriented, accountable, transparent, responsive, effective and efficient, equitable and inclusive and follows the rule of law. It assures that corruption is minimized, the views of minorities are taken into account and that the voices of the most vulnerable in society are heard in decision-making. It is also responsive to the present and future needs of society.

#### 2.1 NATIONAL KEY PERFORMANCE INDICATORS - GOOD GOVERNANCE AND PUBLIC PARTICIPATION

The following table indicates the Municipality's performance in terms of the National KPI required in terms of the Local Government: Municipal Planning and the Performance Management Regulations 796 of 2001 and Section 43 of the Municipal Systems Act (MSA) (Act 32 of 2000) . This key performance indicator is linked to the National KPA - Good Governance and Public Participation.

Indicator	Municipal achievement	Municipal achievement
	2017/18	2018/19
The percentage of a municipality's capital budget actually spent on capital projects identified for a particular financial year in terms of the municipality's integrated development plan (After roll-over projects)	174%	43.74%

Table 16: National KPIs - Good Governance and Public Participation Performance

#### 2.2 GOVERNANCE STRUCTURE

##### 2.2.1 Political Governance Structure

The Council performs both legislative and executive functions. They focus on legislative, oversight and participatory roles, and have delegated its executive function to the Mayor and the Executive Committee. Their primary role is to debate issues publicly and to facilitate political debate and discussion. Apart from their functions as decision makers, councillors are actively involved in community work and the various social programmes in the municipal area.

##### a) Council

The Emthanjeni Local Municipal Council comprises of 15 elected councillors, made up out of 8 ward councillors and 7 proportional representation councillors. The portfolio committees are made up of councillors drawn from all political parties. Below is a table that categorised the councillors within their specific political parties and wards for the 2018/19 financial year:

Name of Councillor	Capacity	Political Party	Ward representing or proportional
S Sthonga	Mayor	ANC	Proportional Councillor
M Kivedo	Speaker	ANC	Proportional Councillor
N Mkontwana	Executive Committee Member	ANC	Ward 3

Table 17: Council 2018/19

## b) Executive Committee

The Mayor of the Municipality, Councillor ST Sthonga assisted by the Executive Committee, heads the executive arm of the Municipality. The Mayor is at the centre of the system of governance, since **executive powers are vested in him to manage the day-to-day affairs**. He has an overarching strategic and political responsibility. The key element of the executive model is that executive power is vested in the Executive Committee, delegated by the Council, and as well as the powers assigned by legislation. Although accountable for the strategic direction and performance of the Municipality, the Mayor operates in concert with the Executive Committee.

The name and portfolio of each member of the Executive Committee is listed in the table below for the period 1 July 2017 to 30 June 2018:

Name of member	Capacity
S Sthonga	Chairperson
N Mkontwana	Member
H Rust	Member

Table 18: Executive Committee 2018/19

## c) Portfolio Committees

Section 80 Committees are permanent committees that specialise in a specific functional area of the Municipality and may in some instances make decisions on specific functional issues. They advise the Executive Committee on policy matters and make recommendations to Council. Section 79 Committees are temporary and appointed by the Executive Committee as needed. They are set up to investigate a particular issue and do not have any decision-making powers. Similar to Section 80 Committees, they can make recommendations to Council. Once their *ad hoc* task had been completed, Section 79 Committees are disbanded. External experts and councillors can be included on Section 79 Committees.

The portfolio committees for the 2016/22 mayoral term and their chairpersons are as follow:

Corporate and Human Resource Services Committee	
Chairperson	Other members
N Mkontwana	D Vanel
	M Maramba
Infrastructure Services Committee

## d) Political decision-taking

Section 53 of the MSA stipulates inter alia that the respective roles and areas of responsibility of each political structure and political once bearer of the Municipality and of the Municipal Manager must be defined. The section below is based on the Section 53 role clarification that was approved at the council meeting of May 2011.

### **Municipal Council**

- governs by making and administrating laws, raising taxes and taking decisions that affect people's rights
- is a tax authority that may raise property taxes and service levies
- is the primary decision maker and takes all the decisions of the Municipality except those that are delegated to political structures, political once bearers, individual councillors or officials
- can delegate responsibilities and duties for the purposes of fast and effective decision making;
- must strive towards the constitutional objects of local government
- must consult the community with respect to local government matters
- is the only decision maker on non-delegated matters such as the approval of the IDP and budget

### **Mayor**

- is the executive and political leader of the Municipality and is in this capacity supported by the Executive Committee
- is the social and ceremonial head of the Municipality
- must identify the needs of the Municipality and must evaluate progress against key performance indicators
- is the defender of the public's right to be heard
- has many responsibilities with respect to the annual budget, the budget process, budget control and various other financial matters
- Performs the duties and exercise the responsibilities that were delegated to him by the Council

## Executive Committee

- its members are elected by the Mayor from the ranks of councillors
- its functional responsibility area is linked to that of the Mayor to the extent that he must operate together with the members of the Executive Committee
- its primary task is to assist the Mayor in the execution of his powers - it is in fact an “extension of the office of Mayor”
- the committee has no powers of its own - decision making remains that of the Mayor

## 2.2.2 Administrative Governance Structure

The Municipal Manager is the Chief Accounting Officer of the Municipality. He is the head of the administration, and primarily serve as chief custodian of service delivery and implementation of political priorities. He is assisted by his direct reports, which constitutes the management team, whose structure is outlined in the table below:

Name of Official	Department
I Visser	Municipal Manager
M Ludwick	Financial Services
T Msengana	Corporate Services
M Joka	Acting Director Community Services
M Owies	Infrastructure Services

Table 20: Administrative Governance Structure

## COMPONENT B: INTERGOVERNMENTAL RELATIONS

In terms of the Constitution of South Africa, all spheres of government and all organs of state within each sphere must co-operate with one another in mutual trust and good faith fostering friendly relations. They must assist and support one another; inform and consult one another on matters of common interest; coordinate their actions, adhering to agreed procedures and avoid legal proceedings against one another.

## 2.3 INTERGOVERNMENTAL RELATIONS

### 2.3.1 Intergovernmental Structures

To adhere to the principles of the Constitution as mentioned above the Municipality participates in the following intergovernmental structures:

Name of structure	Members	Outcomes of engagements/topics discussed
Technical/Political IGR	Mayor	Political oversight
Safety Forum	Ward councillors and Special Program Coordinator	Abuse of women and children

Table 21: Intergovernmental Structures

## 2.3.2 Joint projects and functions with Sector Departments

All the functions of government are divided between the different spheres namely national, provincial and local. The Municipality therefore share their area and community with other spheres of government and their various sector departments and has to work closely with national and provincial departments to ensure the effective implementation of various projects and functions. The table below provides detail of such projects and functions:

Name of project/ function	Expected outcome of the Project	Sector department involved	Contribution of sector department
District War Room	Poverty reduction	Social Development	Coordination of meeting and training of councillors
District Aids Council	HIV/AIDS prevention	District Municipality	Training and administrative support
Crime Prevention	Crime prevention	Department of Transport Safety and Liaison	Training and administration support

Table 22: Joint Projects and Functions

## COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

Section 16 of the MSA refers specifically to the development of a culture of community participation within municipalities. It states that a municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance. For this purpose, it must encourage and create conditions for the local community to participate in the affairs of the community. Such participation is required in terms of:

- the preparation, implementation and review of the IDP
- establishment, implementation and review of the performance management system
- monitoring and review of the performance, including the outcomes and impact of such performance
- preparation of the municipal budget

### 2.4 PUBLIC MEETINGS

#### 2.4.1 Ward Committees

The ward committees support the ward councillor who receives reports on development, participate in development planning processes, and facilitate wider community participation. To this end, the Municipality constantly strives to ensure that all ward committees function optimally with community information provision, convening of meetings, ward planning, service delivery, IDP formulation and performance feedback to communities.

## COMPONENT D: CORPORATE GOVERNANCE

Corporate governance is the set of processes, practices, policies, laws and stakeholders affecting the way an institution is directed, administered or controlled. Corporate governance also includes the relationships among the many stakeholders involved and the goals for which the institution is governed.

### 2.5 RISK MANAGEMENT

In terms of Section 62(1)(c)(i) of the MFMA *“the accounting officer of a municipality is responsible for managing the financial administration of the municipality, and must for this purpose take all reasonable steps to ensure- that the municipality has and maintains effective, efficient and transparent systems - of financial and risk management and internal control;”*...

The management of risk is the process by which the Accounting Officer, Chief Financial Officer and the other senior management of a Municipality will pro-actively, purposefully and regularly, but at least annually, identify and define current as well as emerging business, financial and operational risks and identify appropriate, business and cost-effective methods of managing these risks within the Municipality, as well as the risk to the stakeholders.

The Risk Policy addresses key elements of the implementation and maintenance of the Risk Management Framework for the management of risks within defined risk/return parameters, risk appetite and tolerances, as well as Risk Management Standards. It provides a framework for the effective identification, evaluation, management measurement and reporting of the Municipality's risks.

The objective of the Risk Policy is to ensure that a strategic plan is developed that should address the following:

- An effective risk management architecture
- A reporting system to facilitate risk reporting
- An effective culture of risk assessment

The role of the service departments is to identify, review and manage their risks on an ongoing basis, making risk management an integral or natural part of the organisational processes and procedures. Risk management should be embedded in the organisation, since it is an intrinsic part of business planning and decision making - there is no direction taken without looking at potential risks.

The table below include the top 10 risks of the Municipality:

Risk	Current Controls	Residual Risk Exposure	Risk Owner	Action Plans	Action Plan Date
Insufficient security measures at vehicle testing station	Install lockable doors, CCTV	High	Director Community Services	Alarm system, burglar doors, security light	2019/2020

Table 32: Top Ten Risks

The role of the Risk Committee is to provide a timely and useful enterprise risk management report to the Audit Committee of the Municipality. The report contains the current top risks of the Municipality, which includes:

- The key strategic and financial risks facing the Municipality (all extreme and high-risk exposures)
- The key operational risks per strategic goal (top 5 risks per objective as per risk exposure from high to low)

Further details of the roles of the Risk Committee is included in the approved Risk Committee Charter.

The Risk Committee consists of the following members:

Name of Committee Member	Capacity	Meeting Date
M Ludwick	CFO	No meetings held during the year
T Msengana	Director Corporate Services	
Z Mtswana	Risk Officer	
M Joka	Acting Director Community Services	
M Owies	Director Technical Services

## 2.6 ANTI-CORRUPTION AND ANTI-FRAUD

Section 83(c) of the MSA refers to the implementation of effective bidding structures to minimize the possibility of fraud and corruption and the MFMA, Section 112(1)(m)(i) identify supply chain measures to be enforced to combat fraud and corruption, favoritism and unfair and irregular practices. Section 115(1) of the MFMA states that the accounting officer must take steps to ensure mechanisms and separation of duties in a supply chain management system to minimize the likelihood of corruption and fraud.

## 2.7 AUDIT COMMITTEE

Section 166(2) of the MFMA states that an Audit Committee (AC) is an independent advisory body which must -

(a) advise the municipal council, the political office-bearers, the accounting officer and the management staff of the municipality, on matters relating to -

- internal financial control
- risk management
- performance management
- effective governance

The AC have the following main functions as prescribed in Section 166 (2)(a-e) of the MFMA and the Local Government Municipal Planning and Performance Management Regulation (Reg 796):

### a) Functions of the AC

- To advise the Council on all matters related to compliance and effective governance
- To review the annual financial statements to provide Council with an authoritative and credible view of the financial position of the municipality, its efficiency and its overall level of compliance with the MFMA, the annual Division of Revenue Act (DoRA) and other applicable legislation
- Respond to the Council on any issues raised by the Auditor-General in the audit report
- To review the quarterly reports submitted to it by the internal audit
- To evaluate audit reports pertaining to financial, administrative and technical systems
- The compilation of reports to Council, at least twice during a financial year
- To review the performance management system and make recommendations in this regard to Council
- To identify major risks to which Council is exposed and determine the extent to which risks have been minimised
- To review the annual report of the Municipality
- Review the plans of the internal audit function and in so doing; ensure that the plan addresses the high-risk areas and ensure that adequate resources are available
- Provide support to the internal audit function
- Ensure that no restrictions or limitations are placed on the internal audit section
- Evaluate the activities of the internal audit function in terms of their role as prescribed by legislation

## b) Members of the AC

The following table indicates the members of the AC:

Name of representative	Capacity
F Fillies	Chairperson
N van der Merwe	Member
B Jacobs (Deceased)	Member
N Ngubo	Member

Table 36: Members of the Audit Committee

## 2.8 PERFORMANCE AUDIT COMMITTEE

The Municipal Planning and Performance Management Regulation require that the Performance Audit Committee (PAC) is comprised of a minimum of three members. Section 14(2) (b) of the Regulations further stipulates that the performance audit committee must include at least one person who has expertise in performance management. It is a requirement of the Regulations in Section 14(2)(d) that the Council of a municipality designate neither a member of the PAC who is neither a Councillor nor an employee of the Municipality as the chairperson of the committee.

In terms of Section 166(4)(a) of the MFMA, an AC must consist of at least three persons with appropriate experience, of who the majority may not be in the employ of the Municipality.

Section 166(5) of the MFMA, requires that the members of an AC must be appointed by the Council of the Municipality. One of the members, not in the employ of the Municipality, must be appointed as the chairperson of the committee. No Councillor may be a member of an AC.

Section 14(3)(a) of the Regulations requires that the PAC of a Municipality must meet at least twice during each financial year. However, additional special meetings of the PAC may be called for by any member of the committee, where sufficient justification exists in terms of Section 14(3)(b) of the Regulations.

### a) Functions of the PAC

In terms of Section 14(4)(a) of the Regulations the PAC has amongst others the responsibility to -

- i) review the quarterly reports produced and submitted by the internal audit process
- ii) review the Municipality's performance management system and make recommendations in this regard to the Council of the Municipality
- iii) at least twice during each financial year submit a performance audit report to the Council of the Municipality

## b) Members of the PAC

The following table indicates the members of the PAC:

## 2.9 COMMUNICATION

Local government has a legal obligation and a political responsibility to ensure regular and effective communication with the community. The Constitution of the Republic of South Africa, 1996 and other statutory enactments all impose an obligation on local government and require high levels of transparency, accountability, openness, participatory democracy and direct communication with the communities to improve the lives of all.

Good customer care is clearly of fundamental importance to any organisation. A successful communication strategy therefore links the people to the municipality's programme for the year. Below is a communication checklist of the compliance to the communication requirements:

## 2.10 WEBSITE

Municipalities are required to develop and maintain a functional website that displays relevant information as per the requirements of Section 75 of the MFMA and Section 21(a-b) of the MSA as amended.

The website should serve as a mechanism to promote accountability and transparency to communities and therefore information posted should be accurate and timeously updated.

The municipal website is a key communication mechanism in terms of service offering, information sharing and public participation. It is a communication tool that should allow easy and convenient access to relevant information. The municipal website should serve as an integral part of the municipality's communication strategy.

The table below gives an indication about the information and documents that are published on our website.

## CHAPTER 3

This chapter provides an overview of the key service achievements of the Municipality that came to fruition during 2018/19 in terms of the deliverables achieved compared to the key performance objectives and indicators in the IDP.

### 3.1 OVERVIEW OF PERFORMANCE WITHIN THE ORGANISATION

Performance management is a process which measures the implementation of the organisation's strategy. It is also a management tool to plan, monitor, measure and review performance indicators to ensure efficiency, effectiveness and the impact of service delivery by the Municipality.

At local government level performance management is institutionalized through the legislative requirements on the performance management process for Local Government. Performance management provides the mechanism to measure whether targets to meet its strategic goals, set by the organisation and its employees, are met.

#### 3.1.1 Legislative Requirements

The Constitution of the RSA, Section 152, dealing with the objectives of local government paves the way for performance management with the requirements for an "accountable government". The democratic values and principles in terms of Section 195(1) are also linked with the concept of performance management, with reference to the principles of *inter alia*:

- the promotion of efficient, economic and effective use of resources
- accountable public administration
- to be transparent by providing information
- to be responsive to the needs of the community
- to facilitate a culture of public service and accountability amongst staff

The Municipal Systems Act (MSA), 2000 requires municipalities to establish a performance management system. Further, the MSA and the Municipal Finance Management Act (MFMA) requires the Integrated Development Plan (IDP) to be aligned to the municipal budget and to be monitored for the performance of the budget against the IDP via the Service Delivery and the Budget Implementation Plan (SDBIP).

In addition, Regulation 7(1) of the Local Government: Municipal Planning and Performance Management Regulations, 2001 states that "A Municipality's Performance Management System entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role players." Performance management is not only relevant to the organisation, but also to the individuals employed in the organization as well as the external service providers and the Municipal Entities. This framework, *inter alia*, reflects the linkage between the IDP, Budget, SDBIP and individual and service provider performance.

In terms of Section 46(1)(a) of the MSA a municipality must prepare for each financial year a performance report reflecting the municipality's and any service provider's performance during the financial year, including comparison with targets of and with the performance of the previous financial year. The report must, furthermore, indicate the development and service delivery priorities and the performance targets set by the municipality for the following financial year and measures that were or are to be taken to improve performance.

## 3.1.2 Organisational Performance

Strategic performance indicates how well the Municipality is meeting its objectives and whether policies and processes are working effectively. All government institutions must measure and report on their strategic performance to ensure that service delivery is done in an efficient, effective and economical manner. Municipalities must therefore develop strategic plans and allocate resources for the implementation. The implementation of the plans must be monitored on an on-going basis and the results must be reported on during the financial year to various role-players to enable them to timeously implement corrective measures where required.

This report highlights the strategic performance in terms of the Municipality's Top Layer Service Delivery Budget Implementation Plan (SDBIP), high level performance in terms of the strategic objectives and performance on the National Key Performance Indicators (KPI's) as prescribed in terms of Section 43 of the MSA.

## 3.1.3 Performance Management System

The Municipality continues to implement performance in terms of the performance management framework that was approved by Council in January 2011

## 3.1.4 The IDP and the Budget

The IDP and the main budget for 2018/19 was approved by Council in May 2018. As the IDP and the performance management process are integrated, the IDP fulfils the planning stage of performance management whilst performance management in turn, fulfils the implementation management, monitoring and evaluation of the IDP.

In terms of the performance management framework, the Mayor approved the Top Layer Service Delivery Budget Implementation Plan (SDBIP) in June 2018. The Top layer SDBIP indicators are aligned with the budget which was prepared in terms of the reviewed IDP. The indicators in the Top Layer SDBIP include indicators required by legislation, indicators that will assist to achieve the objectives adopted in the IDP and indicators that measure service delivery responsibilities.

The actual performance achieved in terms of the KPI's was reported on quarterly. The indicators and targets were adjusted after the finalisation of the previous year budget and mid-year budget assessment. The Top Layer SDBIP was revised with the adjustments budget in terms of Section 26(2)(c) of the Municipal Budget and Reporting Regulations and an amended Top Layer SDBIP was approved by Council. The performance agreements of the senior managers were compiled and revised in terms of the SDBIP indicators and the portfolio of evidence that support the actual targets reported.

## 3.1.5 Actual Performance

The Municipality utilizes an electronic web-based system on which KPI owners update actual performance monthly. KPI owners report on the results of the KPI by documenting the following information on the performance system:

- The actual result in terms of the target set
- A performance comment
- Actions to improve the performance against the target set, if the target was not achieved

It is the responsibility of every KPI owner to maintain a portfolio of evidence to support actual performance results updated.

### 3.1.6 Monitoring of the Service Delivery Budget Implementation Plan

Municipal performance is measured as follows:

- Quarterly reports were submitted to Council on the actual performance in terms of the Top Layer SDBIP
- Mid-year assessment and submission of the mid-year report to the Mayor in terms of Section 72(1)(a) and 52(d) of the Local Government MFMA to assess the performance of the Municipality during the first half of the financial year

### 3.1.7 Individual Performance Management

Performance management is prescribed in the MSA and the Municipal Planning and Performance Management Regulations, 796 of August 2001. Section 7(1) of the regulation states that “A Municipality’s Performance Management System entails a framework that describes and represents how the municipality’s cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organized and managed, including determining the responsibilities of the different role players.” This framework, *inter alia*, reflects the linkage between the IDP, budget, SDBIP and individual and service provider performance.

#### a) Municipal Manager and Managers directly accountable to the Municipal Manager

The MSA prescribes that the municipality must enter into performance-based agreements with the all s57-employees and that performance agreements must be reviewed annually. This process and the format are further regulated by Regulation 805 (August 2006). The performance agreements for the Municipal Manager and applicable directors for the 2018/19 financial year was signed.

The appraisal of the actual performance in terms of the signed agreement takes place twice per annum as regulated. The final evaluation of the 2017/18 financial year (1 January 2017 to 30 June 2018) took place on 28 November 2018 and the mid-year performance of 2018/19 (1 July 2017 to 31 December 2018) took place on 12 March 2019.

The appraisals were done by an evaluation panel as indicated in the signed performance agreements and in terms of Regulation 805 and consisted of the following people:

- Mayor
- Portfolio Councillor
- Municipal Manager
- Chairperson of the Audit Committee
- External Municipal Manager

## 3.2 INTRODUCTION TO STRATEGIC AND MUNICIPAL PERFORMANCE FOR 2018/19

This section provides an overview of the key service achievements of the Municipality that came to fruition during 2018/19 in terms of the deliverables achieved against the strategic objectives of the IDP

### 3.2.1 Strategic Service Delivery Budget Implementation Plan (Top Layer)

This section provides an overview on the achievement of the Municipality in terms of the strategic intent and deliverables achieved as stated in the IDP. The Top Layer SDBIP assists with documenting and monitoring of the Municipality's strategic plan and shows the strategic alignment between the IDP, budget and performance plans.

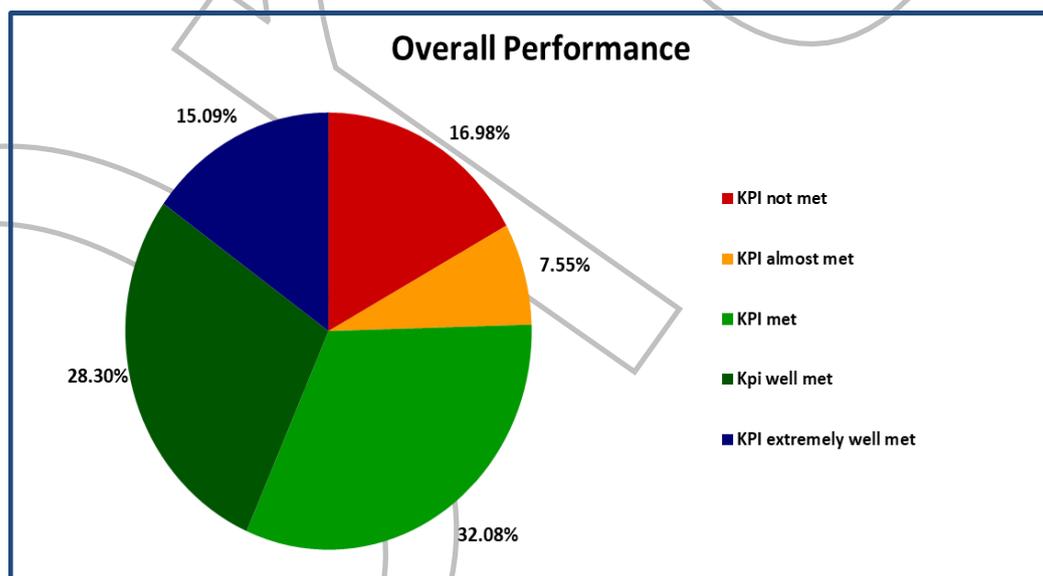

In the paragraphs below the performance achieved is illustrated against the Top Layer SDBIP KPI's applicable to 2018/19 in terms of the IDP strategic objectives.

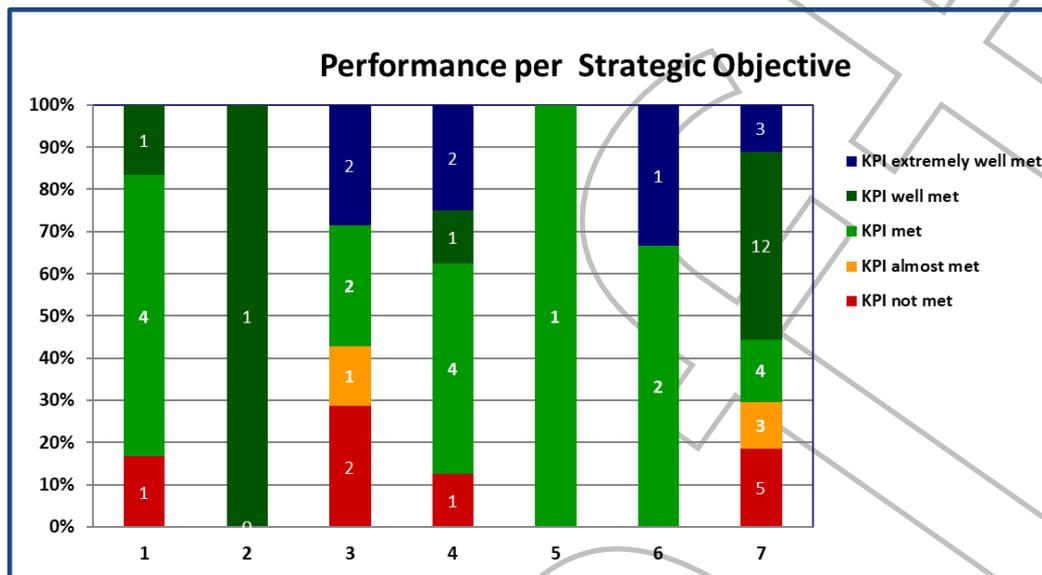

The following table explains the method by which the overall assessment of the actual performance against the targets set for the KPI's of the SDBIP are measured:

Category	Colour	Explanation
KPI Not Yet Measured	Grey	KPI's with no targets or actuals in the selected period
KPI Not Met	Red	0% > = Actual/Target < 75%
KPI Almost Met	Orange	75% > = Actual/Target < 100%
KPI Met	Light Green	Actual/Target = 100%
KPI Well Met	Dark Green	100% > Actual/Target < 150%
KPI Extremely Well Met	Blue	Actual/Target > = 150%

### 3.2.2 Service Providers Strategic Performance

Section 76(b) of the MSA states that KPIs should inform the indicators set for every municipal entity and service provider with whom the municipality has entered into a service delivery agreement. A service provider:

- means a person or institution or any combination of persons and institutions which provide a municipal service to or for the benefit of the local community
- means an external mechanism referred to in Section 76(b) which provides a municipal service for a municipality
- service delivery agreement means an agreement between a municipality and an institution or person mentioned in Section 76(b) in terms of which a municipal service is provided by that institution or person, either for its own account or on behalf of the municipality

During the year under review the Municipality did not appoint any service providers who provided a municipal service to or for the benefit of the local community on behalf of the Municipality and therefore this report contains no such details. All other contract appointments are regularly monitored and ensured, that the requirements of the contract are complied with.

### 3.2.3 Municipal Functions

### 3.3 WATER PROVISION

#### 3.3.1 Introduction to Water Services

Emthanjeni is totally dependent on groundwater (boreholes) and the effective and sustainable management thereof in order to provide a cost effective water supply is of the greatest importance to the Municipality. Received Water Services Infrastructure Grant (WSIG) funding for refurbishment of De Aar boreholes. The Water Conservation/Water Demand Management (WCWDM) strategies are aimed at limiting water losses in order to keep the cost of water at affordable levels. The water losses in the 2018/19 financial year were 24% compared to the 21% in the 2017/18 financial year. There are 2 main reservoirs in De Aar West and East with a capacity of 13.6ML and 12ML respectively. Hanover have a collecting reservoir and a Trappieskop reservoir with a capacity of 1.659ML and 0.42ML respectively. Britstown have 4 small dams and 2 pressure towers. The 4 small dams have a capacity ranging from 0.207ML to 1.189ML. The capacity of the 2 pressure towers are 0.087ML each.

## 3.4 WASTE WATER (SANITATION) PROVISION

### 3.4.1 Introduction to Waste Water (Sanitation) Provision

De Aar Waste Water Treatment Works (WWTW) have been upgraded during the previous financial year just to make the plant operational. There is still the challenge of the Urine Diversion System (UDS) toilets in Hanover and converting it to full waterborne sewerage. We are currently doing it from own funding. However, it is not sufficient and alternative sources of funding will be explored.

The Britstown Oxidation Ponds Project have been approved by Department of Water and Sanitation's (DWS) for Regional Bulk Infrastructure Grant (RBIG) funding for bulk services. The Municipality received R9.5 million Water Services Infrastructure Grant (WSIG) from DWS for the internal sewer reticulation of Britstown, as well as the refurbishment of boreholes in De Aar. A further R26 million was received for the upgrade of Britstown oxidation ponds.

## 3.5 ELECTRICITY

### 3.5.1 Introduction to Electricity

Local Government plays a very important role in the provision of electricity. Section 153 of the Constitution places the responsibility on municipalities to ensure the provision of services to communities in a sustainable manner for economic and social support.

The energy losses for the 2017/18 financial year was 11.8% whilst the losses in the 2018/19 financial year were 17.64%. This outcome gives an end result of 5.84% increase in energy losses that is a huge problem for the Municipality.

At present there is no backlog in the provision of electricity to households. The biggest challenge currently is the portion of Hanover where Eskom is the supplier. Council has initiated a process to ascertain whether it would be possible to take over this area from Eskom in order to have a uniform system in place.

### 3.5.2 Highlights: Electricity

The table below specifies the highlights for the year:

Highlights	Description
Funding obtained from the Department of Energy (DOE) for the electricity upgrade in De Aar East as part of the Integrated National Electrification Programme (INEP)	Network is overloaded which results in some areas experiencing power dips. Therefore, the upgrade is required to increase capacity
Funding secured for high mast lighting in Montana and Nonzwakazi	Municipal Infrastructure Grant (MIG) funding has been secured to erect high mast light in dark areas
Solar geysers provided to indigent households	Solar geysers were provided to indigent households to assist indigents with hot water and to save on electricity usage
Replacement of streetlights with LED lights	Business plans have been drafted to replace streetlights with LED lights as part of the Energy Efficiency Demand Side Management (EEDSM) in order to reduce Eskom account and save costs

Table 62: Electricity Highlights

### 3.5.3 Challenges: Electricity

The table below specifies the challenges for the year:

Description	Actions to address
Meter tampering and bypass (Loss in revenue and increased line losses)	Meter controller to do thorough inspections, we currently busy replacing the old seals with LG110 type and PT1 meters are being replaced with Con log or Landis & Gyr type meters

Description	Actions to address
Copper theft (Customers are without power for a long time due to line repairs) in areas like Waterdal	Cases are reported to South African Police Department (SAPD) and copper conductors is to be replaced with aluminium conductors. Application for funding has been submitted to DOE
Line losses (Reflecting negatively against the Municipality if above a certain target percentage and impacts on revenue)	Through continuous monitoring the Municipality aim to reduce losses even further. The Municipality is currently under the target of National Energy Regulator of South Africa (NERSA) (NERSA's target is 22%)
Funding required for the electrification of 4 114 houses as part of a housing project	Business plans and funding applications have been submitted to the DOE for the electrification of 4 114 houses

## 3.6 WASTE MANAGEMENT (REFUSE COLLECTIONS, WASTE DISPOSAL, STREET CLEANING AND RECYCLING)

### 3.6.1 Introduction to Waste Management

Domestic refuse is currently removed on a weekly basis in all residential areas of Emthanjeni. Informal dumping (littering) remains a major challenge, but all areas are regularly cleaned up. Various areas have street cleaners who clear the littering daily. Additional programmes were introduced to improve waste management in the municipal area.

### 3.6.2 Highlights: Waste Management

The table below specifies the highlights for the year:

Highlights	Description
De Aar, Hanover and Britstown Landfill sites permitted	Approval was obtained from the Department of Environmental and Nature Conservation (DENC)
Cleaning campaigns	Dedicated cleaning campaigns were done throughout the year
Establishment of the management team	A management team was established to manage waste in the municipal area
Appointed Waste Management Officer (Superintendent)	A Waste Management Control Officer was appointed to manage the waste function
Kerb system	Kerbing system was implemented in some areas

Table 67: Waste Management Highlights

### 3.6.3 Challenges: Waste Management

The table below specifies the challenges for the year:

Description	Actions to address
Lack of machinery to perform waste management and minimize efforts	Acquire additional machinery in 2019/20 financial year
Illegal dumping still evident	Host awareness programs to educate the communities on keeping the environment clean
Implementation of Kerb system	Engage affected communities to get used to the Kerb system process
Unavailability of refuse bins	Budgetary provision must be made for the procurement of refuse bins and submit proposal for possible assistance in this regard

## 3.7 HOUSING

### 3.7.1 Introduction to Housing

The Municipality has a fully functional housing division that takes care of the day-to-day running of the housing function within the Municipality and is also ready to discharge additional functions as it is also in the process of preparing its level two Accreditation Business Plan, in its attempt to apply for level two accreditation. The housing division is comprised of four subdivisions with a divisional head, as the responsible line manager, one senior administrative officer, one housing clerk in Britstown, one in Hanover, and two consumer education clerks in De Aar.

The organogram of the Municipality clearly shows Emthanjeni's readiness to handle level one and level two functionalities. Emthanjeni Municipality has shown and demonstrated capacity to administer different National Housing Programs in its municipal sphere. An extensive planning exercise was concluded to determine the total current housing backlog and estimation of the total current bulk services carrying capacity. It has also successfully completed phase 1 (town planning of sites in all three towns and is now busy with the servicing of 400 sites in De Aar, and the construction of 195 houses in Hanover.

Amongst others, the housing unit of Emthanjeni is tasked to:

- Ensure that sustainable housing development takes place
- Integrate housing with other municipal services and sectors in order to establish sustainable human settlements
- Coordinate municipal departments to cooperate in planning and implementing housing projects
- Promote middle and high-income housing which will in turn generate resources to improve low-income areas

## Housing need:

Given the strategic decision to focus on subsidy and gap housing, the needs can be summarized as follows:

Subsidy	4 304
Gap	250
<b>Total</b>	<b>4 554</b>

## 3.8 FREE BASIC SERVICES AND INDIGENT SUPPORT

Indigent applications are processed annually but new applications are assessed and updated monthly. The indigent register was reconciled with the financial system (Abakus) and the pre-paid electricity system. Credit control officials are continuously updating indigent households on the pre-paid electricity system.

New indigent household applications were processed and approved, so that these households received their levied free basic services (FBS) during the month. Indigent households will receive their FBS on the first of the month following the approval of their applications.

The table indicates the percentage of indigent households that have access to free basic municipal services. In accordance with the approved Indigent Policy of the Municipality, all households earning less than R3 500 per month will receive the free basic services as prescribed by national policy.

The table below indicates that 28.21% of the total number of households received free basic services in the 2017/18 financial year whilst it increased to 30.42% in the 2018/19 financial year:

Financial year	Number of households

## COMPONENT B: ROAD TRANSPORT

### 3.9 ROADS

#### 3.9.1 Introduction to Roads

During the past year the Municipality tarred 3.404km of streets from MIG funding as well as 0.24km of Piet Moos Street with EPWP funding (Total of 3.644km) and constructed 6.209km stormwater channels from MIG funds and that brings the total of tar roads within the municipal area to 90.9km. At present about 56% of all municipal streets are still gravel roads which cause a great deal of inconvenience during rain and strong wind.

#### 3.9.2 Highlights: Roads

The table below specify the highlight for the year:

Highlight	Description
Successfully maintained roads within the whole municipal area	Fixed potholes within all 3 towns in municipal area. Resealing of Claude Street (240m), Church Street (2.5m), Victoria Street (1.5m) and Richmond Street (1.45m)

## COMPONENT C: PLANNING AND LOCAL ECONOMIC DEVELOPMENT (LED)

### 3.11 PLANNING

#### 3.11.1 Introduction to Planning

Town Planning and Building Control falls under the Manager: Project Management Unit. There is only one position, namely Building Inspector, currently in this division. The post of Building Inspector is vacant, and despite being advertised on several occasions, no suitable candidate was found.

With the implementation of SPLUMA (Act No 16 of 2013), is now a great need of permanent qualified town planner who can also execute the function of land development officer (LDO).

The Manager: Project Management Unit currently deal with all issues related to land use and building control.

#### **Spatial Development Framework (SDF) and Land Use Management Scheme (LUMS)**

Both the SDF and LUMS are outdated and do not comply with the current legislation. During a recent evaluation of the current SDF, it was found that it could not be updated, and will have to be redrafted to bring it into line with SPLUMA legislation.

#### **Implementation of SPLUMA**

All municipalities falling under the Pixley ka Seme District Municipality accepted the option of a District Municipal Planning Tribunal (DMPT). Emthanjeni Municipality has complied with all requirements for the implementation of SPLUMA.

#### 3.11.2 Highlights: Planning

The table below specifies the highlights for the year:

Highlights	Description
Approval of building plans	All building plans received are currently dealt with within the prescribed legal timeframes. The average time for the approval of building plans is 2 weeks
DMPT are fully functional	Several land use applications have been dealt with by the DMPT

### 3.11.3 Challenges: Planning

The table below specifies the challenges for the year:

Description	Actions to address
Filling of a vacant post of professional town planner to comply with SPLUMA	The post of a professional town planner must be advertised, and the appointment made
Limited office space	New offices must be constructed

## 3.12 LOCAL ECONOMIC DEVELOPMENT (LED)-INCLUDING TOURISM AND MARKET PLACES

The Municipality has been operating without an informed LED Strategy that can outline clear LED challenges, opportunities and map the way forward. The Municipality's IDP does reflect the Investment Plan and economic transformation agenda that will also be included in the LED Strategy to attract investors to invest in the Municipality.

The Municipality is busy with the development of the LED Strategy which is planned to be finalized or approved by Council during December 2018. The Municipality is assisted by the Department of Economic Development and Pixley Ka Seme District Municipality to develop the LED Strategy. This process will assist in identifying possible projects and programs for improving municipal LED.

### 3.12.1 Highlights: LED

The table below includes the highlights with the implementation of the LED Strategy:

Highlights	Description
Hydroponic project	The Department of Agriculture and the Municipality are in the process to lobby private business to invest in this initiative
Sport infrastructure	Lobby SMME's and private sector to invest in an indoor sport centre for young people and community at large. This can accommodate activities like small conference facility, training centre and other sport facilities like tennis, soccer, netball and basketball
Hanover Lucerne Project	The Municipality through its lobby process is leasing land to private SMME for plantation of lucerne to support emerging farmers during drought period and this can be a sustainable business opportunity
Operational space for SMME's	An SMME hub is essential to accommodation business eg offices, small businesses
Scarcity of accommodation	The strategy is calling upon private investors even individual SMME's to use this opportunity for sake of tourism attraction to accommodate

Highlights	Description
	people by investing on rental houses, flats and lately student accommodation
Logistic warehouse hub	The provincial government and the Municipality are lobbying for this project as an PPE and is still in progress
Off-grid streetlights and others	The Municipality is busy lobbying funds for this initiative that will lower electricity demand and reduce the municipal electricity cost
Hunting	The Municipality is availing its Britstown Commonage for Springbok hunting. Produce can be utilised to generate an income

Table 101: LED Highlights

### 3.12.2 Challenges: LED

The table below includes the challenges with the implementation of the LED Strategy:

Description	Actions to address
Lack of skilled SMME's to venture in business opportunities	Continue SMME's training with the assistance of the private sector and government agencies such as Small Enterprise Development Agency (SEDA)
Lack of operation relations between renewable energy and Municipality	The Municipality must engage with relevant stakeholder on the planning and funding of sustainable projects
Limited budget for LED projects	Funding applications must be submitted to source additional funding

### 3.12.4 Tourism

#### a) Highlights: Tourism

The table below includes the highlights with the implementation of the Tourism Strategy:

Highlights	Description
SMME data collection	The data collection for different SMME's e.g. guesthouses, crafters, restaurants and others to better support and regulate this sector within the Municipality
Heritage and tourism month celebration	Joint organisation of this celebration with sector departments to learn about our culture and attract investors
Revival of Tourism Committee	The Tourism Committee has been revived to coordinate activities that relate to this sector and initiate new ideas

Table 104: Highlights: Tourism

## b) Challenges: Tourism

The table below includes the challenges with the implementation of the Tourism Strategy:

Description	Actions to address
Vacant position for tourism/ communication officer	Possible appointment of communication officer to undertake some of the responsibilities
Non-existence of Tourism Development Forum/Committee	Encourage tourism stakeholders like guesthouse owners, crafters and others to work together
Branding of the Municipality	New communication officer will be responsible for this initiative
Tourism attraction maintenance	Lobby for funding to maintain tourism attractions
Budgetary constrains	Funding applications must be submitted and submitted to source additional funding

## COMPONENT D: COMMUNITY AND SOCIAL SERVICES

### 3.13 LIBRARIES

#### 3.13.1 Introduction to Libraries

The Municipality has 5 libraries operational in the area. Library service is a provincial government function and is delivered as an agency service. The communities welcome the service rendered by library staff in all three towns. New books are introduced on a regular basis. The libraries are now also offering free internet services to communities. Library membership is increasing steadily.

#### 3.13.2 Highlights: Libraries

The table below specifies the highlights for the year:

Highlights	Description
Registration of staff members at UKS	5 staff members were sent to UKS to study library and information certificate through the Leadership Development Programme (LDP) grant to capacitate them
Registration of a staff member with UNISA	1 staff member sent to UNISA to study Archives and Records Management through the LDP grant for capacity building and skills development program
Renovations in our libraries	Installation of blinds in WN Scheefers -, Phandulwazi-, Libra- and H.L.J Library. Installation of air-conditioners in Hanover- and WN Scheefers Library. Painting of the interior and exterior of Hanover Library
Proper coordination of programmes	To ensure community participation on the planned programmes
Installation of internet access point in all libraries	Internet, the most useful technology of modern times which helps us not only in our daily lives but also professionally. For educational purposes, it is widely used to gather information and to do research or add to the knowledge of various subjects. Internet plays a vital role in education

Table 107: Libraries Highlights

#### 3.13.3 Challenges: Libraries

The table below specifies the challenges for the year:

Description	Actions to address
Magazines, newspapers, journal suppliers	Make proper arrangements for a supplier(s) that will be consistent in supplying us with the need of reading materials
Library membership and lost books	Conduct libraries membership audit and verification for membership accuracy. Utilize our messengers more effectively and efficiently and look at appointing more Librarian Aides to curb the issue of lost books and late books
Allocations for libraries	Engage with the Department of Cultural Affairs and Sport (DCAS) for possible increase in our budget allocation

## 3.14 CEMETERIES

Procedures and management measures for the operations of cemeteries is regulated in terms of the Cemeteries By-law (No 6 of 2008). The by-law describes a cemetery as “and or part thereof, including the buildings and works thereon, that is owned and controlled by the Municipality, duly set aside and reserved for burials and make available for public use from time to time for burials”.

Emthanjeni’s cemeteries includes the following:

De Aar	Britstown	Hanover
Caroluspoort, Kareeville, Barcelona, Nonzwakazi, Old Philipstown Road	N12 Town, Mziwabantu, Proteaville Churches, New Cemetery (Proteaville)	N1 Town, Burgerville

Table 113: Emthanjeni Cemeteries

### 3.14.1 Highlights: Cemeteries

The table below specifies the highlights for the year:

Highlights	Description
Introduction of burial application form	An application form was introduced for more control

## COMPONENT E: SECURITY AND SAFETY

The aim of Council is to ensure the safety of all residents and visitors in this municipal area through law enforcement. Currently municipal law enforcement officers work closely with SAPS to combat crime, while the traffic law enforcement officers are assisting those agencies. Integrated operations are held to prevent crime increase in this municipal area through proper planning. The willingness of the community to report crime assists the different law enforcement agencies tremendously in the fight against crime.

### 3.15 TRAFFIC SERVICES

#### 3.15.1 Introduction to Traffic Services

The Traffic Department is divided into four sections namely: Driver's License Test Centre, Motor Registrations and Licensing, Vehicle Test Station and Traffic Law Enforcement. These sections are responsible for traffic related matters and monitoring of compliance with by-laws related to the municipality.

#### 3.15.2 Highlights: Traffic Services

The table below specifies the highlights for the year:

Highlights	Description
3 New traffic officers	3 New traffic officers appointed as from the beginning of 2019
2 Streets upgraded with speed humps	Amandel Street and Leo-Crescent were upgraded with a total of 9 speed humps

### 4.1 NATIONAL KEY PERFORMANCE INDICATORS - MUNICIPAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT

The following table indicates the Municipality's performance in terms of the National Key Performance Indicators required in terms of the Local Government: Municipal Planning and the Performance Management Regulations of 2001 and section 43 of the MSA. These key performance indicators are linked to the National Key Performance Area - Municipal Transformation and Organizational Development.

### 4.2 INTRODUCTION TO THE MUNICIPAL WORKFORCE

The Municipality currently employs **329** (including non-permanent positions) and an approved organogram of **413** officials, who individually and collectively contribute to the achievement of Municipality's objectives. The primary objective of Human Resource Management is to render an innovative HR service that addresses both skills development and an administrative function.

#### 4.2.1 Employment Equity

The Employment Equity Act (1998) Chapter 3, Section 15(1) states that affirmative action measures are measures designed to ensure that suitable qualified people from designated groups have equal employment opportunities and are equitably represented in all occupational categories and levels in the workforce of a designated employer. The national performance indicator also refers to: "Number of people from employment equity target groups employed in the three highest levels of management in compliance with a municipality's approved employment equity plan".

### 4.2.2 Vacancy Rate

The approved organogram for the Municipality has 413 positions for the 2018/19 financial year. The actual positions filled are 329. Therefore, 84 positions were vacant at the end of 2018/19, resulting in a vacancy rate of 20.3%.

### 4.2.3 Employee Turnover Rate

A high turnover may be costly to a municipality and might negatively affect productivity, service delivery and institutional memory/organizational knowledge. Below is a table that shows the employee turnover rate within the Municipality. The rate shows a decrease from 5.9% in 2017/18 to 5.16% in 2018/19.

The table below indicates the employee turnover rate over the last two years:

Financial year	Total no appointments at the end of the financial year	New appointments	No Terminations during the year	Employee Turnover Rate
2017/18	340	23	20	5.9%
2018/19	329	17	18	5.16%

Table 161: Employee Turnover Rate

## 4.3 MANAGING THE MUNICIPAL WORKFORCE

Managing the municipal workforce refers to analyzing and coordinating employee behavior.

### 4.3.1 Injuries

An occupational injury is a personal injury, disease or death resulting from an occupational accident. Compensation claims for such occupational injuries are calculated according to the seriousness of the injury/disease and can be costly to a municipality. Occupational injury will influence the loss of man hours and therefore financial and productivity performance.

The table below indicates the total number of injuries within the different directorates for 2017/18 and 2018/19:

Directorates	2017/18	2018/19
Office of the Municipal Manager	0	0
Corporate Services	0	0
Financial Services	0	1
Infrastructure Services	1	3
Community Services	2	2
<b>Total</b>	<b>3</b>	<b>6</b>

Table 162: Injuries

### 4.3.2 Sick Leave

The number of day's sick leave taken by employees has service delivery and cost implications. The monitoring of sick leave identifies certain patterns or trends. Once these patterns are identified, corrective action can be taken.

The total number of employees that have taken sick leave during the 2018/19 financial year shows an increase when compared with the 2017/18 financial year.

The table below indicates the total number sick leave days taken within the different directorates:

Department	2017/18	2018/19

## 4.4 CAPACITATING THE MUNICIPAL WORKFORCE

Section 68(1) of the MSA states that municipality must develop its human resource capacity to a level that enables it to perform its functions and exercise its powers in an economical, effective, efficient and accountable way. For this purpose, the human resource capacity of a municipality must comply with the Skills Development Act (SDA), 1998 (Act No. 81 of 1998), and the Skills Development Levies Act, 20 1999 (Act No. 28 of 1999).

### 4.4.1 Skills Matrix

The table below indicates the number of employees that received training in the year under review:

#### 4.4.2 Skills Development - Training Provided

The Skills Development Act (1998) and the Municipal Systems Act, (2000), require employers to supply employees with the necessary training to develop its human resource capacity. Section 55(1)(f) states that as head of administration the Municipal Manager is responsible for the management, utilization and training of staff.

### 4.4.3 MFMA Competencies

In terms of Section 83(1) of the MFMA, the accounting officer, senior managers, the chief financial officer, non-financial managers and other financial officials of a municipality must meet the prescribed financial management competency levels that are key to the successful implementation of the MFMA. National Treasury has prescribed such financial management competencies in Government Notice 493 dated 15 June 2007.

To assist the above-mentioned officials to acquire the prescribed financial competencies, National Treasury, with the collaboration of various stakeholders and role players in the local government sphere, developed an outcomes based NQF Level 6 qualification in municipal finance management. In terms of the Government Notice 493 of 15 June 2007, "(1) No municipality or municipal entity may, with effect 1 January 2013, employ a person as a financial official if that person does not meet the competency levels prescribed for the relevant position in terms of these Regulations."

The table below provides details of the financial competency development progress as required by the regulation:

Description	Total number of officials employed by municipality (Regulation 14(4)(a) and (c))	Competency assessments completed (Regulation 14(4)(b) and (d))	Total number of officials whose performance agreements comply with Regulation 16 (Regulation 14(4)(f))	Total number of officials that meet prescribed competency levels (Regulation 14(4)(e))

## 4.5 MANAGING THE MUNICIPAL WORKFORCE EXPENDITURE

Section 66 of the MSA states that the accounting officer of a municipality must report to the Council on all expenditure incurred by the municipality on staff salaries, wages, allowances and benefits. This is in line with the requirements of the Public Service Regulations, (2002), as well as National Treasury Budget and Reporting Regulations SA22 and SA23.

### 4.5.1 Personnel Expenditure

The percentage personnel expenditure is essential in the budgeting process as it reflects on current and future efficiency. The table below indicates the percentage of the municipal budget that was spent on salaries and allowance for the past two financial years and that the municipality is well within the national norm of between 35% to 40%:

Financial year	Total Expenditure Salary and Allowances	Total Operating Expenditure	Percentage

## CHAPTER 5

This chapter provides details regarding the financial performance of the Municipality for the 2018/19 financial year.

### COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE

The Statement of Financial Performance provides an overview of the financial performance of the municipality and focuses on the financial health of the Municipality.

## 5.5 FINANCIAL RATIOS BASED ON KEY PERFORMANCE INDICATORS

### 5.5.1 Liquidity Ratio

Description	Basis of calculation	2017/18	2018/19
Current Ratio	Current assets/current liabilities	0.60	0.89
Current Ratio adjusted for aged debtors	Current assets less debtors > 90 days/current liabilities	0.86	0.58
Liquidity Ratio	Monetary assets/current liabilities	0.14	0.25

Table 197: Liquidity Financial Ratio

The current ratio indicates a Council's ability to meet its financial obligations such as payment for goods and services supplied. A ratio of 1:1 indicates that unrestricted current assets are available on hand to meet unrestricted current liabilities. It is furthermore an indication of a Council's solvency.

### 5.5.2 IDP Regulation Financial Viability Indicators

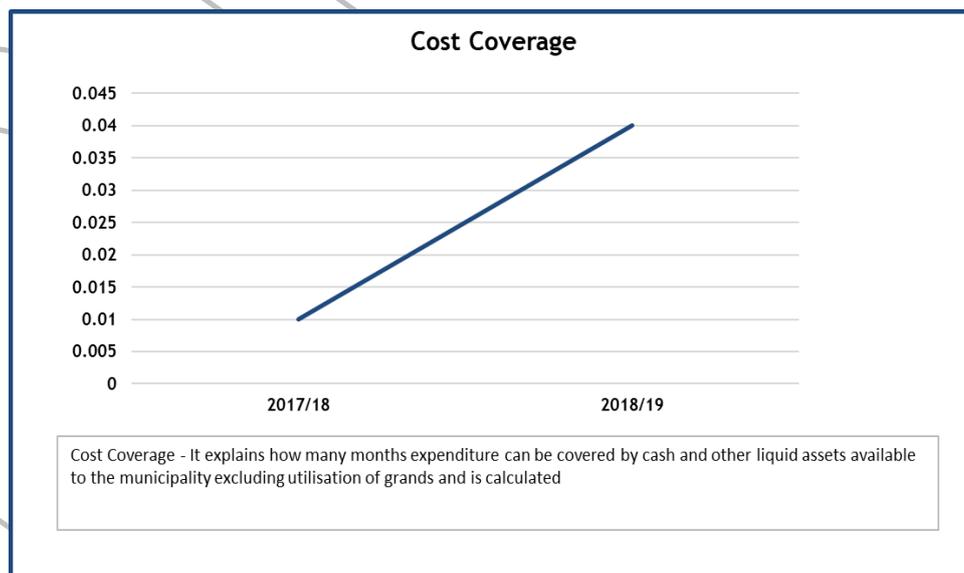

Description	Basis of calculation	2017/18	2018/19
Cost Coverage	(Available cash + Investments)/monthly fixed operational expenditure	0.54	1.30
Total Outstanding Service Debtors to Revenue	Total outstanding service debtors/annual revenue received for services	0.48	0.23
Debt coverage	(Total Operating Revenue - Operating Grants)/Debt service payments due within financial year	0.01	0.04

Table 198: Financial Viability National KPAs

#### a) Cost Coverage

This ratio indicates the Municipality's ability to meet its short-term (monthly) expenditures. It takes into consideration all available cash at a particular time including income from investments. The ratio has to be in excess of 1:1. Strict application of the Credit Control Policy and measures implemented to collect outstanding debtors should improve the ratio. However, this ratio should be read in conjunction to other ratios.

The following graph indicates the cost coverage financial viability indicator:

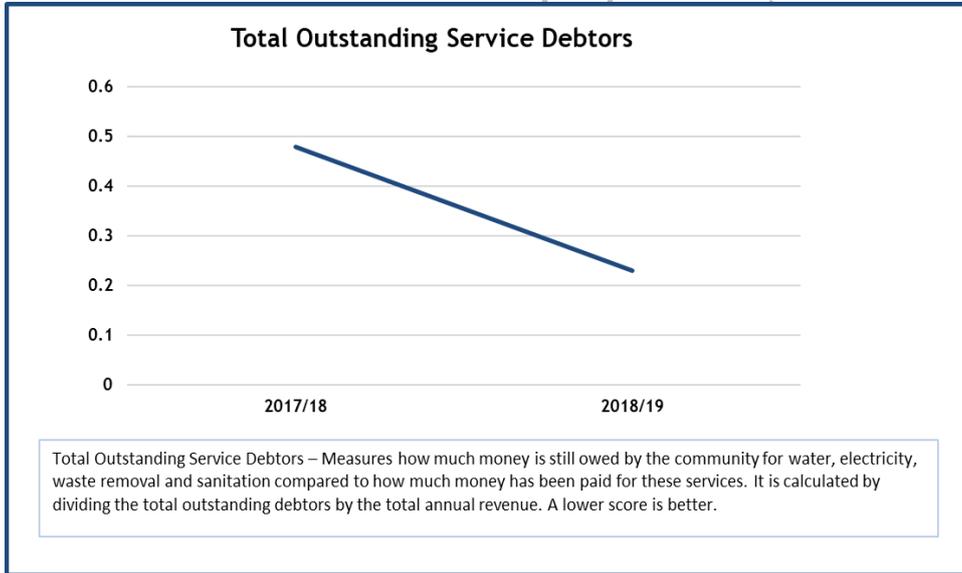

Graph 5: Cost Coverage

## b) Outstanding Service Debtors to Revenue

This ratio indicates how effective revenue collection is being executed by the Municipality. The Municipality should continuously enhance revenue collection mechanisms and enforce debt collection policies.

The following graph indicates the outstanding service to revenue financial viability indicator:

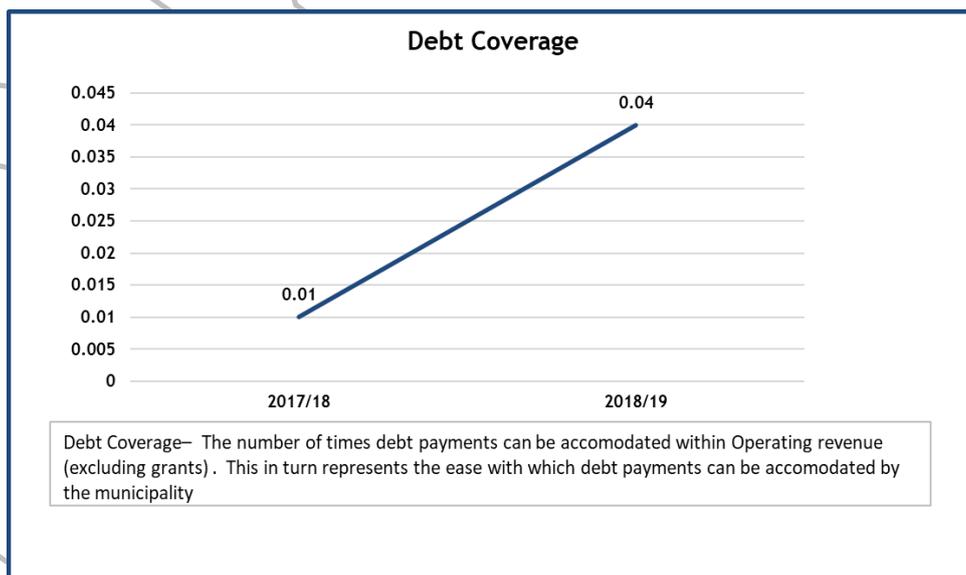

Graph 6: Total Outstanding Service Debtors

## c) Debt Coverage

The debt coverage ratio shows the Municipality’s ability to service its debt payments. A debt coverage ratio of 2 is generally considered acceptable assuming the other tests of safety have been met. The higher the debt service ratio, the lower the risk.

The following graph indicates the debt coverage financial viability indicator:

Graph 7: Debt Coverage

## 5.5.3 Borrowing Management

Description	Basis of calculation	2017/18	2018/19
Capital Charges to Operating Expenditure	Interest & Principal Paid / Operating Expenditure	0.01	0.01

Table 199: Borrowing Management

## 5.5.4 Employee costs

Description	Basis of calculation	2017/18	2018/19
Employee costs	Employee costs / (Total Revenue - capital revenue)	36%	33%

Table 200: Employee Costs

The ratio gives an indication of the total percentage paid on employee cost. The ratio decreased from 36% in 2017/18 to 33% in 2018/19.

## 5.5.5 Repairs & Maintenance

Description	Basis of calculation	2017/18	2018/19
Repairs & Maintenance	R&M (Total Revenue excluding capital revenue)	6%	6%

Table 201: Repairs & Maintenance

The ratio gives an indication of the total percentage paid on repairs and maintenance. The Municipality should consider maintaining their assets as impairments of these assets might have an effect on service delivery and should increase repairs and maintenance to at least the 8% norm.

## COMPONENT C: CASH FLOW MANAGEMENT AND INVESTMENTS

Cash flow management is critical to the municipality as it enables the organisation to assess whether enough cash is available at any point in time to cover the council's commitments. Cash flow is rigorously managed and monitored on a regular basis.

## COMPONENT B: AUDITOR-GENERAL OPINION 2018/19

### 6.2 AUDITOR-GENERAL REPORT 2018/19

2018/19	
Main issues raised under emphasis of matter	Corrective steps implemented/ to be implemented
<b>Revenue from exchange transactions</b>	
The Municipality did not have adequate systems to maintain records of revenue for exchanges relating to services for sale of electricity.
