7. Minor Breaches and Deviations	P18
8. Awards to Close Family Members of Persons in the Service of the State	P27
9. Logistic, Disposal and Risk Management	P28
10. Summary	P31

1. INTRODUCTION

The scope of the implementation review will include the following:

Supply Chain Management Implementation Report

The Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003), (the 'MFMA') requires the municipality to have and implement a Supply Chain Management Policy which gives effect to the provisions of Part 1 of Chapter 11 of the Act that deals with 'Supply Chain Management'.

On the 30th May 2005 the Municipal Supply Chain Management Regulations were issued. As a Medium Capacity Municipality Emthanjeni Local Municipality had to comply with the provisions of the Regulations from 01 January 2006. Annually the SCM Policy is revised by Council. The SCM Policy, together with the applicable set of delegations was approved by Council on 29 May 2018 at a legally constituted Council meeting.

Although the MFMA prohibits a Councillor from being a member of a bid committee or any other committee evaluating or approving quotations, bids or tenders the council has an oversight role to ensure that the accounting officer implements all supply chain management activities in accordance with this policy. For the purposes of such oversight the Regulations require that the accounting officer must –

- (a) Within 30 days of the end of each financial year, submit a report on the implementation of the policy to the Council.**

2. The Delegations

The Accounting Officer is responsible for implementing the policy and taking all reasonable steps to ensure that proper mechanisms and separation of duties in the supply chain management system are in place to minimise the likelihood of fraud, corruption, favouritism and unfair and irregular practices.

In terms of this responsibility Council has adopted a full set of delegations which assist in maximising the administrative and operational efficiency. The delegations also provide adequate checks and balances in the municipalities Supply Chain Management function. According to Section 79 and 106 of the MFMA delegations and sub-delegations in terms of sub-section 1 must be in writing.

The Accounting Officer has delegated powers and duties to directors as prescribed by the SCM Policy, these delegations have been conferred in writing between the individuals (CFO, MFS and all Accountant). There are also minor sub-delegations in place in terms of

individual officials' job description but these sub-delegations have not been conferred in writing between the parties as is prescribed by the policy. The municipality has duly implemented the Bid Committee system, also with the proper written delegations.

The undertaking by the Supply Chain Management Unit to exercise a thorough identification of the powers and the duties of officials to determine the relevant levels for sub-delegations to the incumbents and compile written delegations and have implemented this system of written delegations in terms of the legislation by the 1st of October 2007 has been reached.

SCM reports are submitted to the National and Provincial Treasury as well as the Council and MPAC on a regular basis.

Progress on the implementation will be provided on an ongoing basis through the quarterly reports.

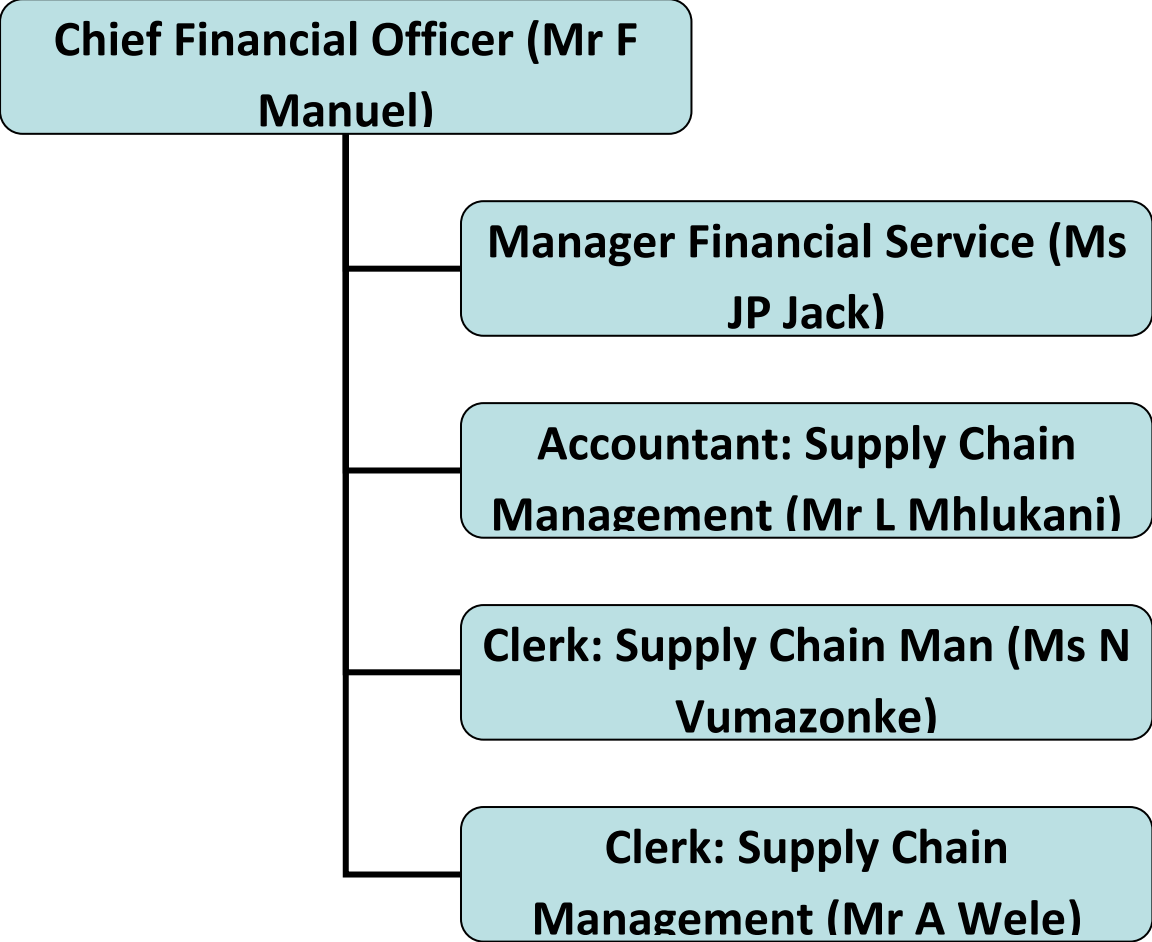

3. Organisational Structure

In terms of Paragraph 7 of the Municipal Supply Chain Management Regulations (MSCMR) the municipality must establish a Supply Chain Management Unit (SCMU) to implement its supply chain management policy. The SCMU operates under the direct supervision of the Chief Financial Officer (CFO) or may be delegated to an official in terms of Section 82 of the MFMA.

However the SCM Accountant and staff reports directly to the Manager Financial Services.

With all the challenges facing the SCM unit, procurement is being done centrally and the SCM unit is trying its best to cope with the workload.

The organizational structure within the unit is set out as follows:

During the reporting period, the staff complement that performed the duties and functions in terms of the SCM policy were as follows:

Chief Financial Officer -	Supply Chain Management Practitioner Co-ordinates and controls the implementation of the Policy
Manager of Financial Services -	Supply Chain Management Practitioner Co-ordinates and controls the implementation of the Policy
Accountant: Supply Chain Management -	Implementation of the policy Supervise the implementing staff Processing of all procurement
Clerks: Supply Chain Management -	Processing of all procurement

This structure ensures that proper mechanisms and separation of duties in the supply chain management system are in place to minimise the likelihood of fraud, corruption, favouritism and unfair and irregular practices. The Chief Financial Officer is responsible for the administration and the implementation of the SCM policy and interchangeably takes part in the Bid Committee system.

4. Competency Levels of the Supply Chain Management Unit

A number SCM related workshops (Virtual) were attended by the supply chain management unit staff under the current financial year 2021/2022. All three officials in the supply chain management have completed and have passed the supply chain management learnership program (NQF Level 5) which was facilitated by National and Provincial Treasury offered by Commerce Edge. This program has commenced in September 2020 ended May 2021.

The Supply Chain Unit staff Possesses a lot of experience amongst themselves; but because this unit is an ever changing unit on an everyday basis it is important that the staff be equipped by attending workshops and trainings when they request to do so, so that as the country and world is developing they are equally equipped to deal with the changes that comes with development. It is my plea then that this becomes one of the priorities in the municipality to make sure that this municipality is kept in par with the rest of the country.

5. Demand Management

5.1 Preferred Suppliers Database

In terms of the Municipal Financial Management Act (MFMA) (Act 56 of 2003) the Emthanjeni Local Municipality is required to have a Preferred Suppliers Database.

However Purchases for goods and services for all the Municipality since 2015/16 Financial Year has been made through the Central Suppliers Database (CSD). The Emthanjeni Local Municipality is using the Central Suppliers Database (CSD) and requested all current as well as interested suppliers to register on the database.

The Central Suppliers Database is an online web based system and anyone doing business with Municipality should register online. Emthanjeni Local Municipality has made efforts and continues to make efforts e.g. Workshops to assist businesses to register online on CSD and this is happening on a day to day as the office of SCM Unit is assisting individuals to register their businesses on the CSD.

5.2 Supply Chain Management processes

The following thresholds are currently being adhered to in order to support the strategic and operational commitments of the Municipality:

(a) For procurement to a value of R1 000 (VAT included)

- One quotation will be required
- The supplier is selected and appointed on a rotation basis, provided that the parts or repairs are supplied immediately
- Normal stock items: the buyer will re-order at the agreed minimum stock level
- For the purchasing of non-stock items authorization is required in accordance with the delegations

(b) For procurement of values between R1 001 and R2 000 (VAT included)

- One quotations will be required
- The supplier is selected and appointed on a rotation basis, provided that the parts or repairs are supplied immediately
- Normal stock items: the buyer will re-order at the agreed minimum stock level
- For the purchasing of non-stock items authorization is required in accordance with the delegations

(c) For procurement of values between R2 001 and R10 000 (VAT included)

- Two written quotations will be required
- The supplier is selected and appointed on a rotation basis, provided that the parts or repairs are supplied immediately
- Normal stock items: the buyer will re-order at the agreed minimum stock level
- For the purchasing of non-stock items authorization is required in accordance with the delegations

(d) For procurement of values between R10 001 and R200 000 (VAT included)

- Three formal written quotations will be required
- The CFO will appoint the supplier on a rotation basis, depending on the urgency and delivering period
- All requirements in excess of R30 000 must be advertised for at least 7 days on the website and an official notice board of Emthanjeni Local Municipality
- The CFO will approve all purchases above R100 000

(e) For procurement above R200 000 (VAT included) and long term contracts

- Goods and services are procured by way of a competitive bidding process for-
- procurement above a transaction value of R200 000 (VAT included); and
 - the procurement of long term contracts.

The development of efficient and effective Procurement Procedures was set as a prime objective. This goal, although it is an ongoing process, has been reached.

6. The Bid Committee System

The Bid Committee system for competitive bids has been actively applied within the municipality over the past financial year ending June 2022. Officials are still being invited on an ad-hoc basis to participate in the committees as and when required, but with written delegations in order to participate in the committees.

6.1 The bid specification committee

The bid specification committee compiles the specifications for the procurement of goods or services by the municipality.

The committee is appointed by the Accounting Officer and must be composed of one or more officials of the municipality, preferably a Supply Chain Management Practitioner and the manager responsible for the function involved, and may when regarded appropriate by the Accounting Officer, include external specialist advisors.

The relevant Director is normally the chairperson of the Specifications Committee

The current members of the Bid Specification Committee are:

Standing Members

A Wele
P Claaste
J Barth
L Ranelo
M Mbombo

Advisors to the Specification Committee as Specialised Function as per specific tender that relates to a particular Directorate.

Finance Directorate	:	F Manuel & JP Jack
Corporate Services	:	T Msengana
Community Services	:	MR CP Appies
Infrastructure Services	:	L Thiso, L Billy, Bressies

6.2 The bid evaluation committee

The bid evaluation committee is appointed by the Accounting Officer and must as far as possible be composed of –

- One or two senior managers from the departments requiring the goods or services;

- Supply Chain Management Practitioner / Controller
- Tender Secretariat
- Internal Auditor

The current members of the Bid Evaluation Committee are:

P Jack
S Felix
L Billy
CP Appies
N Vumazonke (SCM)

6.3 The bid adjudication committee

The bid adjudication committee may consist of:

- The Chief Financial Officer
- Supply Chain Accountant
- Director
- Tender Secretariat
- Technical Expert in the relevant field who is an official, if such an expert exists

The Bid Adjudication Committee has been fully functional and has been involved in all bids exceeding R 200 000 and due to a conservative approach even awards to a lesser value. The Bid Adjudication Committee recommends to the Accounting Officer, the successful Bidder. The Accounting Officer has the discretion to ratify or rejects the recommendation of the Bid Adjudication Committee.

The current members of the Bid Adjudication Committee are:

F Manuel
L Thiso
T Msengana
H Joka
LC Mhlukani (SCM)

The following Tenders were advertised in financial year in terms of the SCM Policy and the Preferential Procurement Policy:

During the financial year under review 01 July 2021 to 30 June 2022; nine (9) contracts have been awarded by the Accounting Officer on the recommendations made by the Bid Adjudication Committee to the value of R 30 429 068.78.

Out of the total value committed this financial year an amount of R 4 202 556.21 has been paid by 30 June 2022.

16. SCM Notice 16/2022	Quotation for 60x HI Tensile Steel Sewer Rods & Accessories	No Response			

In cases where less than three quotations were received for any procurement, these procurement will form part of the detail summary list of deviation register (list). These deviations were tabled to Council on monthly basis. Detail of deviations are as follows:

7. Minor Breaches and Deviations

7.1 Minor breaches of procurement processes

The Supply Chain Management Policy states in Paragraph 36(1)(b) that: “The accounting officer may ratify minor breaches of the procurement processes by an official or committee acting in terms of delegated powers or duties which are purely of a technical nature”

7.2 Deviations from Procurement Process

The Supply Chain Management Policy states in Paragraph 36(1)(a): “The accounting officer may dispense with the official procurement processes established by this policy and may procure any required goods or services through any convenient process, which may include direct negotiations, but only –

- (i) in a emergency;
- (ii) if such goods or services are produced or available from a single provider only;
- (iii) for the acquisition of special works of art or historical objects where specifications are difficult to compile;
- (iv) acquisition of animals for zoos and/or nature and game reserves; or
- (v) in any other exceptional case where it is impractical or impossible to follow the official procurement processes”

A detailed schedule of all the minor breaches & deviations were approved by the Accounting Officer during the 2021/2022 financial year. These were also adopted by the Executive Committee and MPAC. Please see below

07/01/2022	EB074084	Brilliant Ideas Enterprise	R 142 180,00	A portion of Mziwabantu area was without electricity for a week due to a transformer that exploded and went out of order. The houses affected were about 200, and the municipality had to procure a transformer urgently in December 2021	R	142 180,00	
31/01/2022	D1022369	Syntell	R 875 000,00	After awarding the SCM Notice for 200 prepaid electricity meters in December 2021, the delivery of the prepaid meters are prolonged due to global shortage of semi-conductor chip in the production of prepaid electricity makers. Syntell has stock available and I requested them to provide the municipality with a quotation for 500 prepaid meters. Syntell only has split electricity meters available. Due to the continued increase in by-passing of electricity as a result of shortage of prepaid electricity, Emthanjeni Municipality is losing huge amounts of revenue and it will continue if new meters were not procured. The main reason for deviation is that the procurement process will take almost three months, hence it will increase the loss of revenue incurred by the municipality.	R	875 000,00	
23/02/2022	D1022414	Precision Hydraulics	R 9 280,50	Precision Hydraulics is the only service provider that does load testing on this apparatus and issue a certificate.	R	9 280,50

17/03/2022	D1022488	De Aar Stone Crushers	6 325,00	During the excavations at Kort Street to try to detect the location of the blockages, we used our TLB for a portion of excavation. The as-built information that we have at our Municipality indicated that we would be able to get the sewer pipeline and the Municipality's TLB boom was found to be too short to reach the deep excavations. This is when we realized the as-built information was captured correctly by the service provider. We had speedily hire a TLB with a longer boom. De Aar Stone Crushers had a TLB with the required specification of the boom. We hired it to carry out the excavation.	6 325,00	
17/03/2022	D1022489	De Aar Stone Crushers	11 422,00	Infrastructure needed sand and gravel in preparation for repalcing the sewer line that is blocked at Kort Street. The material had to be ready to ensure we attend to emergency as as possible. De Aar Stone Crushers were the only service provider, provide the Municipality with a quote.	11 422,00	
18/03/2022	EB074244	DB Drain Busters	29 285,00	Our Municipality utilizes the old method of unblocking drain manually. De Aar Stone Crushers TLB was able to expose the pipe line. Due to the blockage we then requested for quotation to pressure vacuum the line. Three quotations were sourced and we opted for the lowest. Through many engagement with other service providers, they were not willing to revise the scope. All three service providers required a deposit to be made upfront before dispatching to site. We then proceeded to appoint the lowest. We found out just before mobilizing to De Aar that they were not registered on CSD but we had to proceed with them due the emergency and the number of complaints received also taking into consideration the safety and healthy hazard.		29 285,00
07/04/2022	D1022479	KJ Dumas Ingenieurswerke	4 887,50	The only service provider can render this service in our area, of outpress of booster clamp	4 887,50	
			51 919,50		22 634,50	29 285,00

8. Awards to Close Family Members of Persons in the Service of the State

In terms of Regulation 45 of the Supply Chain Management Regulation, awards to close family members of persons in the service of the state must disclose particulars of awards of more than R 2000 in the Annual Financial Statements.

No bids were awarded to a person who is a family member of a person in the service of the state.

Awards to Persons in the Service of the State

In terms of Council's Supply Chain Management Policy, Paragraph 49, the municipality is prohibited from doing business with any person in the service of the state.

No bids were awarded to a person in the service of the state.

9. Logistics, Disposals and Risk Management

The SCM unit must provide an effective system to ensure the setting of inventory levels, placing of orders, receiving and distribution of goods, stores and warehouse management, expediting orders, vendor performance, maintenance and contract administration as well as provide for an effective method of disposal and letting of assets which is inclusive of redundant and obsolete stock. Such systems must also have in place mechanisms to identify, consider and avoid potential risk in the SCM system.

Sec 40 Municipal Supply Chain Management Regulations: Disposal Management provides for an effective system of disposal management for the disposal or letting of assets, including unserviceable, redundant or obsolete assets.

Immovable and/or Moveable Asset/s were disposed this Financial Year 2021/2022 for the amount of R 19 595.13

a. Setting of Inventory Levels

The inventory levels are monitored on a regular basis and updated, with the assistance with the Expenditure Department.

b. Inventory Control

At the Time this report was prepared the stock take for the 2021/2022 financial year has been concluded.

c. Placing of Orders

Copies of all orders are kept onsite and outstanding orders are followed up on a regular basis.

d. Receiving and Distribution of Goods

The receipt and distribution of goods are recorded on the accounting system. This enables us to regularly do spot checks on stock as well as a full formal stock take at the end of the financial year.

e. Vendor Performance, Maintenance and Contract Administration

Vendor performance is monitored continuously and problems are promptly addressed. Vendor records are also updated on a regular basis and contract administration are performed regularly to ensure service delivery.

f. Redundant and Obsolete Stock

Redundant and obsolete stock are written off in terms of Council's Asset Management Policy.

g. Mechanisms to identify, consider and avoid potential risk in the SCM System

The potential of risks are identified on a case by case basis when the specifications of a particular requirement are drawn up. Individual transactions are scrutinized by the heads of department with the relevant delegation of authority to ensure compliance 36 with the SCM policy and further scrutiny is placed on the transactions before the payment is made by the office of the CFO.

10. Summary

The implementation of Supply Chain Management in the municipality has become an accepted reality in the municipality.

Projects and procurement is being planned with cognisance of the requirements of the Supply Chain Management legislative framework. However more work should be done in order to improve strategic sourcing to enhance the value the municipality can derive in improved sourcing and supplier development.

The current shortcomings in the implementation of the Supply Chain Management Policy are constantly addressed. Council's SCM policy fully complies with the requirements of the SCM Regulations, and is ideally set to ensure that procurement processes of the municipality is fair, equitable, transparent, competitive and cost effective and comply with the prescriptions of the Municipal Finance Management Act.

I. VISSER
MUNICIPAL MANAGER
